

MyEdBC Parent Login Information – August 2021

MyEdBC Login - <https://myeducation.gov.bc.ca/aspn/logon.do>

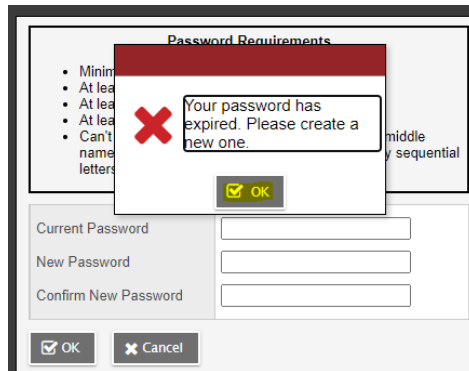

This link is also available on the SD22 District webpage, at the bottom of the screen.

New families to SD22 Vernon should have received a Login ID and Temporary password from the MyEdBC team. **Current families** will have the same login ID but the password may have expired.

If you have forgotten your password or if it has expired, please click the: “I forgot my password” link on the main login screen.

An email will be sent, containing the new auto generated password. Log into the system once again using this new temp password. Upon login, you will be advised that this password has expired. The following screen will appear to allow you to change your password. Click OK

To change the password, add the GenPW as your current password and then add your password of choice in the following two fields. You then will have access to your student information in MyEdBC.

Note: User ID's and passwords are case sensitive.

Class and homeroom information is currently being updated for the upcoming school year so is not yet available in MyEdBC.
