GOALS OF EDUCATION STRATEGIC PLAN

Board of Education

SCHOOL DISTRICT NO. 22 (VERNON)

The Board of Education will develop and maintain a Strategic Plan for the school district.

The plan should outline guiding principles and goals for the school district and set a clear vision for our education system.

This statement of goals has two purposes:

1. To provide a district-wide framework within which individual schools will establish objectives and programs for the particular segment of the population which they serve, and
2. To provide a frame of reference for the policies and procedures which the Board must establish as trustees of public school education for School District No. 22 (Vernon).

The Board of Education accepts and supports the Provincial mission statements that "the purpose of the British Columbia school system is to enable learners to develop their individual potential and to acquire the knowledge, skills, and attitudes needed to contribute to a healthy society and a prosperous and sustainable economy".

Goals of Education

- Intellectual development
- Human and social development

●——— Career development

~~The Board of Education has established these goals for the public school system in accordance with the philosophy that every child within School District No. 22 (Vernon) will have the opportunity to develop to his/her fullest potential, not only as an individual, but as a member of society. As an individual, every child will have the opportunity to develop intellectually, physically, mentally and emotionally.~~

~~The Board of Education has stated these goals for children within its jurisdiction with full realization that the preparation of children to take their place as contributing members of society is a responsibility shared by many individuals and groups, including parents, the school, the community and recreational agencies.~~

~~With the acquisition of intellectual, physical, mental, and emotional growth, the Board of Education of School District No. 22 (Vernon) believes that the child will be prepared to make a valuable contribution as a member of society.~~
