

## SD22's Teacher supported home based learning program

### Goals of the Program

- To provide an individualized program and education plan
- To fulfill the learning outcomes and competencies prescribed by the Ministry of Education
- To provide resources that support the learning outcomes
- To provide and support an alternative, flexible education program
- To encourage and support students and parents in their education goals
- To provide access to certified teachers
- To provide access to programs, classes and activities which enhance and augment the curriculum

**Program:** A public Distributed Learning School servicing the province of British Columbia, vLearn offers greater flexibility in education so students can pursue their passions. vLearn puts an emphasis on the different learning needs of all students.

**Pace:** Students can work towards graduation at their own pace, and in their own place.

**Elementary / Middle School Program (K-9):** Designed for parents and students who need flexibility in time/ location and/or parents who wish to take a greater role in their child's development Provides access to extensive resources in all subject areas Provides space and time for student inquiry and collaboration Recognizes the importance of socialization during weekly activity days for K-7 and event based opportunities for 8-9

**Grade 10 to 12 Secondary Program** Offers students high quality online courses for core academics and a variety of electives. Students can enroll full time or select individual courses to supplement their program at another BC high school Completion of a course in a month or a year – the choice provides you opportunity to build your own personalized graduation plan. Of course, our admission staff will also support you in building your grad pla as well.
